

Institute of Mathematical  
Structure Theory (MathC)

Univ.-Prof. Dipl.-Ing.  
Dr. Wolfgang Woess

Steyrergasse 30/III  
A-8010 Graz, Austria

Tel. +43 (0) 316/873-7130  
Fax +43 (0) 316/873-4507

[woess@weyl.math.tu-graz.ac.at](mailto:woess@weyl.math.tu-graz.ac.at)

<http://www.math.tugraz.at/~woess/>

### PostDoc Position starting with December, 2008

at Institut für Mathematische Strukturtheorie,  
TU Graz (Graz University of Technology), Graz, Austria,  
<http://www.math.tugraz.at/mathc/>  
Research group of Wolfgang Woess  
<http://www.math.tugraz.at/~woess/>

**Areas of research:** probability and analysis on discrete structures  
(infinite graphs and groups)

The position is within the Austrian Science Fund project "Random walks,  
random configurations, and horocyclic products", see the project description  
<http://www.math.tugraz.at/~woess/Proposal.pdf>

Starting with **December 1st, 2008** (or at the earliest possible date after that), the  
position is for 12 (maybe 15) months.

Candidates should have a PhD in mathematics in an area that is close to that project  
and show interest in work that goes beyond one single mathematical discipline.

In case of successful immersion in the research group, an extension within a follow-up  
project may be possible.

For further information and application, candidates with serious interest should write an  
informal email to [woess@TUGraz.at](mailto:woess@TUGraz.at), attaching a CV.

Graz, September 25, 2008

Wolfgang Woess
