

Summer School “Dynamical Systems and Number Theory” Graz, July 9–13, 2007

General Information

Public Transport

If you intend to use public transportation regularly during the week, a weekly ticket (“Wochenkarte”) is the simplest possibility. Just punch it, when you first enter a tramway or bus, it is then valid for one week. With € 9.20 it is cheaper than six one-hour tickets. Weekly tickets are only available at ticket counters of Graz public transport (in front of the railway station, on Jakominiplatz) and in all tobacco shops (“Trafik”). Single one-hour tickets are available in buses and tramways.

Lunch

There are a number of small restaurants and snack bars around the campus:

- university canteen, Inffeldgasse (walk 10–15 minutes or take tramway number 6 to “St. Peter Schulzentrum”)
- pizzeria “Mel’s”, Stremayrgasse 13, some choice of pizzas and a dish of the day
- Gasthaus “Vomer”, Felix Dahn Platz, simple local kitchen, dish of the day
- “Hazal” Turkish snacks, Schörgelgasse
- many snack bars around Jakominiplatz
- vegetarian restaurant “Ginko”, Grazbachgasse 33 (10 minutes walk)

Dinner

The hotel has public refrigerators available. Thus you could buy food for supper in a nearby grocery store.

There are several small restaurants close to the hotel. Please ask at the reception for details.

The city center offers a large choice of restaurants of different kinds and price ranges.

Evenings

Graz is a students town. There are numerous small bars, pubs, and restaurants in the area around Hauptplatz in the historic center of town.

Receptions

Two receptions by the mayor and the local government will be held during the school:

- on Monday, July 9, at 7pm a representative of the mayor will give a reception for the participants of the school in the town hall of Graz situated on Hauptplatz in the very center of town. Snacks and drinks will be served.
- on Thursday, July 12, at 7pm we will have a less formal reception financed by the local government in the assembly hall (“Aula”) of Graz University of Technology, Rechbauerstrasse 12, first floor. Snacks and drinks will be served.

Computer access

Wireless network access is possible in most of the building Steyrergasse 30 with the account information provided (only authenticated access is possible). Additionally, we provide some computers in the seminar room on the second floor. Your personal account information also works for access here. Please do not leave anything on these accounts, as they will be deleted immediately after the end of the school.

The hotel offers a freely accessible computer room with internet access.
