

# Workshop on "Boundaries"

Graz University of Technology, Austria  
June 29 - July 4, 2009

## Invited speakers

Donald I. Cartwright  
(Sydney)

Anna Erschler  
(Paris-Orsay)

Yves Guivarc'h  
(Rennes)

Vadim A. Kaimanovich  
(Bremen)

Francois Ledrappier  
(Paris)

Volodymyr Nekrashevych  
(Texas)

James Parkinson  
(Sydney)

Massimo Picardello  
(Rome)

Tim Riley  
(Bristol)

Klaus Schmidt  
(Vienna)

Tim Steger  
(Sassari)

Anatoly Vershik  
(St. Petersburg)

## Aim of the workshop

To bring together mathematicians working on groups, graphs, manifolds, etc., in the context of probability (random walks, Brownian motion), harmonic analysis, potential theory, ergodic theory, geometric group theory and related topics. The title indicates a central topic but is not to be considered the exclusive theme.

### Scientific Committee

Tatiana Nagnibeda-Smirnova  
(Geneva University, Switzerland)

Christophe Pittet  
(University of Aix-Marseille 1, France)

Hamish Short  
(Université d'Aix-Marseille I, France)

Wolfgang Woess  
(Graz University of Technology, Austria)

### Local Committee

Ecaterina Sava  
(Graz University of Technology, Austria)

Wolfgang Woess  
(Graz University of Technology, Austria)
