Curriculum Vitae of Mihyun KANG

Graz University of Technology
Institute of Discrete Mathematics
Steyrergasse 30, 8010 Graz, Austria
https://www.math.tugraz.at/~kang
ORCID ID: 0000-0001-8729-2779

Research fields

Combinatorics, Discrete Probability, Algorithms:

probabilistic combinatorics, enumerative combinatorics, analytic combinatorics;
random planar graphs, random graphs and hypergraphs, random simplicial complexes;
efficient sampling algorithms, randomised algorithms, analysis of algorithms

Academic positions and qualification

since Jan 2012	Full professor, Graz University of Technology (TU Graz), Austria
Apr–Sep 2011	Acting professor, University of Munich (LMU), Germany
2008–2011	Heisenberg fellow of German Research Foundation (DFG),
	Free University Berlin, Germany; New York University, USA; University of Oxford, UK
2001–2008	Postdoc/Privatdozentin, Humboldt University of Berlin (HU), Germany
Jul 2007	Habilitation in Computer Science, Humboldt University of Berlin, Germany
Aug 2001	PhD in Mathematics, Korea Advanced Institute of Science and Technology (KAIST)

Honours and awards

2019	Friedrich Wilhelm Bessel Research Award of Alexander von Humboldt Foundation
2019	Visiting Research Fellowship of Merton College, University of Oxford (research stay in Hilary term 2023)
since 2016	Member of the International Mathematical Union (IMU) Circle
2015	Special Contribution Award, Korean Mathematical Society
2008	Heisenberg Fellowship of German Research Foundation

Editorial activities

since 2020	Editorial board of *Random Structures & Algorithms*
since 2020	Editorial board of *Combinatorial Theory*
since 2019	Editorial board of *Annals of Combinatorics*
since 2018	Series editor of *Mathematik Kompakt* – Springer
since 2013	Editor of *Online Journal of Analytic Combinatorics*
2012–2023	Editor-in-Chief of *Discrete Mathematics & Theoretical Computer Science*
2011–2016	Associate editor of *SIAM Journal on Discrete Mathematics*

Curriculum Vitae of Mihyun KANG

Research grants

2024–2028	FWF SFB "Discrete random structures: enumeration and scaling limits", project part "Phase transitions in random combinatorial structures"
2024–2028	FWF doc.funds "Discrete Mathematics in Teams", topic "Bootstrap percolation in high-dimensional product graphs" and topic "Expected Complexity of Topological Summaries"
2023–2026	Austrian-German joint project "Sparse random combinatorial structures"
2018–2022	Austrian-German DACH-project "Random graphs: cores, colourings and contagion"
2015–2022	FWF Doctoral Program "Discrete Mathematics" (Phases II and III), project 15 "Random graphs on a surface"
2015–2019	FWF project "Asymptotic properties of graphs on a surface"
2014–2017	FWF project "Phase transitions and critical phenomena in random graphs"
2011–2014	DFG project "Phase transitions in random graphs"

Committee for international conferences

- International Oversight Committee of Conference on Random Structures & Algorithms, since 2022
- Program Committee: CanaDAM 2025, ÖMG Meeting 2023, SODA 2020/2009, ANALCO 2019/2017, AofA 2020/2016/2014
- Organising Committee/Co-organiser:
  - 22nd International Conference on Random Structures & Algorithms 2025
  - Oberwolfach Workshop on Random Graphs 2023
  - Banff Workshop on Random Graphs and Statistical Inference 2021 (virtual)
  - Symposium Diskrete Mathematik 2018
  - European Conference on Combinatorics, Graph Theory and Applications 2017
  - International Congress of Mathematicians 2014

Selected plenary/keynote/invited talks

(Link to the list of all invited talks: https://www.math.tugraz.at/~kang/talks.pdf)

- 20th International Conference on Random Structures & Algorithms, Gniezno, Poland, 2022
- Rényi 100, Section Random Graphs and Networks II, Budapest, Hungary, 2022
- 46th Intl. Workshop on Graph-Theoretic Concepts in Computer Science (virtual), Leeds, UK, 2020
- CMI Workshop on Recent Advances in Extremal Combinatorics, Oxford, UK, 2018
- 29th Conference on Analysis of Algorithms, Uppsala, Sweden, 2018
- STAR Workshop on Random Graphs, Utrecht, The Netherlands, 2017
- 27th Conference on Formal Power Series and Algebraic Combinatorics, KAIST, Korea, 2015
- Erdős Centennial, Section Random Discrete Structures, Budapest, Hungary, 2013
- 24th Conference on Analysis of Algorithms, Menorca, Spain, 2013

Curriculum Vitae of Mihyun KANG

Selected publications

(Link to the list of all publications: https://www.math.tugraz.at/~kang/papers.pdf)

- S. Diskin, J. Erde, M. Kang, and M. Krivelevich. Isoperimetric inequalities and supercritical percolation on high-dimensional product graphs, *Combinatorica* (2024), to appear.
- J. Erde, M. Kang, and M. Krivelevich. Expansion in supercritical random subgraphs of the hypercube and its consequences, *Annals of Probability* 51 (2023), 127-156.
- M. Kang and M. Missethan, Concentration of maximum degree in random planar graphs, *J. Combin. Theory Ser. B* 156 (2022), 310-342.
- N. Fountoulakis, M. Kang, and T. Makai, Resolution of a conjecture on majority dynamics: rapid stabilisation in dense random graphs, *Random Structures & Algorithms* 57 (2020), 1134-1156.
